FRILLED BEGONIA

Gigantic-flowered BEGONIAS

Begonias are, perhaps, the handsomest of all summer-flowering plants. They are at present the most popular for use in window-boxes, as house plants, and for planting in beds or groups in moist, shaded areas. Gigantic flowers appear uninterruptedly from July until frost, and their bright colors contrast well with the deeply colored foliage. Plant the bulbs outdoors, from early May on. For earlier flowers plant them indoors in March or April and transplant into the open when warm weather arrives. Bulbs may be lifted in autumn and stored in a cool place over winter for planting the following year.

RAINBOW MIXTURE of BEGONIAS

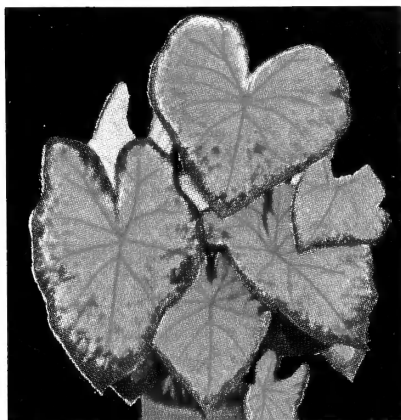

This inexpensive mixture includes all the different colors as well as all the various types of Begonias. They will look extremely picturesque in your garden, planted in beds, groups, or as edgings.

12 for \$1.90; 25 for \$3.60

FANCY-LEAVED CALADIUMS

Very showy foliage plants with red, green, and white variegated leaves. Marvelous pot-plants for the conservatory or sun-porch. Do well in shady window-boxes or even for outdoor bedding in shady or semi-shady positions. Bulbs do best if started in pots, planting one bulb to a 6-inch pot. Extra-choice mixture—no two alike.

3 for 90c; 12 for \$3.35

MAJESTIC AMARYLLIS

One of the most expensive, but also the most beautiful of indoor plants. Bulbs throw vigorous stems with several giant blooms of lily-like form, the colors in the mixture ranging from the richest self-colors as crimson and red, to pink, red and scarlet markings on pure white grounds.

Each 50c; 3 for \$1.35

AMARYLLIS formosissima

(Hardy Jacobean Lily)

Brilliant scarlet flowers of almost butterfly shape and formation. Attractive in garden and good pot-plants for the house. Easily grown.

3 for 70c; 12 for \$2.50

CHLIDANTHUS fragrans

Sometimes called "The Delicate Lily." This fine plant produces flowers which resemble a miniature amaryllis on stems 1 foot long. The clear, rich yellow flowers are delightfully fragrant. Blooms June and July. They are hardy south of Philadelphia.

3 for 40c; 12 for \$1.40

HARDY GARDEN LILIES

No class of plants for outdoor growing possesses as many charms as Lilies. Rich in color, stately and handsome in habit, and of such delicious fragrance that they stand out prominently. No herbaceous border should be without at least a few of them.

Auratum (Gold-Banded Lily of Japan). Large white flowers studded with reddish brown spots, with a golden band running through the center of each petal. Grows 3 to 5 feet tall. Blooms in July and September.

Henryi. The flower-stalks, 3 to 5 feet tall, carry 5 to 8 flowers each, of a rich apricot-yellow color. The flower petals are curled beautifully. Blooms in August and September.

Pardalinum (Sunset Lily). A spectacular Lily of rich brilliant orange-red, maroon spotted, with large petals strongly recurved. Eight or more flowers are borne in clusters on strong 5 to 7-foot stems. Blooms in July.

Philippinense formosanum. Large, white, trumpet-shaped flowers on 2-foot stems; delightfully fragrant. Hardy and prolific. Blooms in September.

	Each	3	Doz.
Auratum	\$0 35	\$0 95	\$3 50
Henryi	30	80	2 75
Pardalinum	35	90	3 50
Philippinense formosanum	25	70	2 50

Lilies do best in the hardy border or among shrubbery. Any rich garden soil with good drainage will do. Most Lilies delight in a sunny location, but prefer to have the soil around the base of the plant somewhat shaded. Once established, they will increase in beauty each year.

Regale. A regal beauty. Gorgeous, bell-shaped, white flowers with a touch of canary-yellow in the throat and a shading of lilac-pink on the outside. Grow 3 to 5 feet tall. Blooms in July.

Speciosum album. Handsome, large, white blooms with golden green markings in throat. Petals well rolled back add to their beauty. Grows 3 feet tall and blooms in August and September.

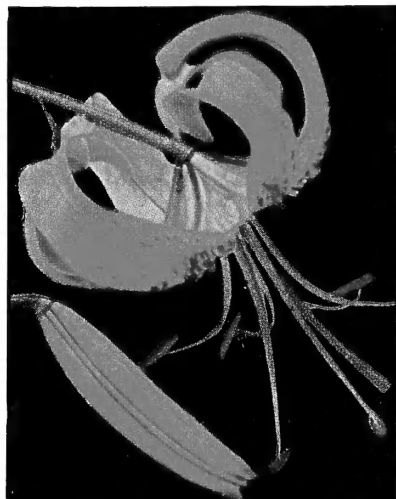

Speciosum rubrum. Frosted white, suffused rose-pink, and spotted crimson. The petals are gracefully reflexed. Blooms in August and September, with many flowers on each 3 to 4-foot stem.

Tigrinum. Large, showy blooms of a bright salmon-orange spotted with purplish black. Grows 3 to 4 feet tall and blooms August and September. Very easy to grow.

	Each	3	Doz.
Regale	\$0 25	\$0 70	\$2 50

TUBEROSE, DOUBLE PEARL

TUBEROSE, Double Pearl

Lovely double flowers of thick, wax-like texture are set close to spike, which grows 3 feet tall. A wonderful summer-flowering plant in the garden, besides being highly prized as cut-flowers. They have a rich, exotic fragrance. Not hardy.

12 for 60c; 100 for \$4.00

SUMMER HYACINTH

(*Hyacinthus candicans*)

Stately plants, producing tall spikes of large, pure white, pendent flowers during summer. Very effective in the garden planted in groups of six or more. Grow 3 to 4 feet tall. Not hardy.

12 for 70c; 100 for \$4.75

CALLA LILIES

Produce an abundance of dark green foliage, spotted silvery white, which gives the plant a very ornamental appearance in the garden. Grow 1½ feet tall. Planted out in April or May they will flower beautifully in August and September.

Seedlings. Produce many flowers in colors from creamy white, amber, to yellow. 3 for 60c; 12 for \$2.00.

Golden Roosevelt. Rich, lustrous golden yellow flowers of velvety texture. Each 45c; 3 for \$1.20; 12 for \$4.50.

TIGRIDIA (Mexican Shellflower)

Few flowers are more gorgeously colored or so beautiful. Plant in a sunny position in a flower border or bed in well-drained soil. Planted in May they give a continuous display of beautiful colors from midsummer till frost. Grow 2 feet tall and each stalk produces several flowers.

3 for 40c; 12 for \$1.40

ISMENE calathina

(Peruvian Daffodil)

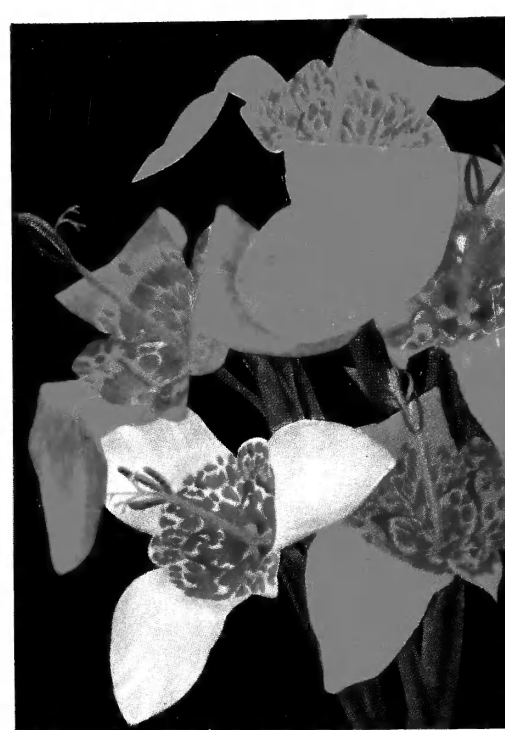

One of the best of our summer-flowering bulbs. Showy, sweet-scented, pearly white, trumpet flowers are borne 3 on a stem, similar to the amaryllis. Prefers a sunny location. Planted in May, they will commence flowering in July. 3 for 60c; 12 for \$2.00

AMORPHOPHALLUS

Rivieri (African Lily)

A veritable exotic bulbous plant. It produces first a large calla-like dark red flower of no particular beauty. The palm-like stalks and foliage that follow later, develop into the shape of a fairy-like, tropical palm 4 feet high. They are of genuine decorative value where a tropical touch is desired. This bulbous plant is very ornamental, quaint, and fantastic.

Each 45c; 3 for \$1.20

TIGRIDIA

MONTBRETIA

One of the brightest of the summer-flowering bulbs, giving a profusion of flowers ranging in color from golden yellow to brilliant scarlet, from July until frost. The single flowers are gracefully arranged along a clear, stiff stem about 2 feet long, making a most desirable cut-flower.
